Weekly Report

Directorate of Administration

25X1

-- On 1 May, the DDCI approved a recommendation made by OP for a new pay level for secretaries who support SIS-1/2 supervisory positions. The new pay level is called GSB-07 and has pay rates which fall between the GS-07 and GS-08 levels. Components are in the process of identifying those secretaries who meet Directorate time-in-grade guidelines and are otherwise eligible so that conversion actions for affected secretaries can be effective 12 May 1985.

-- Centex Construction Company reported that they were one week ahead of schedule in finishing the new building's foundations. Upon completion of the foundations, the erection of the building's steel skeleton will begin. This should occur in about one month. Centex is also building the forms for the building's exterior wall.

DDA 85-0060/18
10 May 1985

MEMORANDUM FOR: Acting Director of Central Intelligence

FROM: Harry E. Fitzwater
Deputy Director for Administration

SUBJECT: Weekly Report for Period Ending 10 May 1985

1. Progress reports on tasks assigned by the DCI/DDCI:

None.

2. Items/events of interest:

25X1

b. General and Mrs. James L. Dozier confirmed their planned participation in the Office of Security's (OS) security awareness program. They will address an Agency-wide audience on the topic, "International Terrorism and Hostage Experience" on Wednesday, 10 July from 1000 to 1130 hours in the Headquarters Auditorium.

c. During the reporting period, the Clearance Division/OS exceeded the new weekly requirement for closing Staff and Staff-like cases by granting one hundred and one security clearances.

25X1

25X1

25X1

S E C R E T

S E C R E T

25X1

j. An OP representative attended the 29 April hearing held by the Post Office and Civil Service Committee on the supplemental retirement program. The testimony by the officials of the U.S. Chamber of Commerce was the highlight of this hearing. The officials attempted to promote a (supplemental) retirement program for new and future Federal employees

S E C R E T

S E C R E T

that would adopt the common practices of private sector retirement programs versus the current Civil Service Retirement System (CSRS) plan. This approach ran into extreme opposition from the Committee members who appear committed to developing a supplemental program with benefits at least equivalent to the current system.

k. OP representatives from the Retirement and Insurance Operations Divisions attended an Office of Personnel Management (OPM) training course on the Civil Service Spouse Equity Act (P.L. 98-615). The course focused on both survivor annuity and health benefits entitlements that will be offered under this law. The forms, regulations, and implementing instructions from OPM have not yet been finalized even though the law took effect on 7 May 1985. There are some cover and security problems which must be resolved associated with documentation required by OPM on claims by former spouses. The latter will be of particular concern where the names of covert employees or retirees are involved. An Employee Bulletin and WWSB providing as many details as possible are being disseminated to employees.

l. On 1 May, the DDCI approved a recommendation made by OP for a new pay level for secretaries who support SIS-1/2 supervisory positions. The new pay level is called GSB-07 and has pay rates which fall between the GS-07 and GS-08 levels. Components are in the process of identifying those secretaries who meet Directorate time-in-grade guidelines and are otherwise eligible so that conversion actions for affected secretaries can be effective 12 May 1985.

25X1

n. A request to transfer an additional 130 cubic feet of OSS records has been submitted to the National Archives and Records Administration (NARA). This is the fifth group of OSS records offered to NARA, and it includes all Washington/Field Station Records. The transfer is expected to be made at the end of the month.

o. On 3 May, the Agency's liaison officer with the Office of the Federal Register hand-carried a new Federal regulation concerning the Agency Security Protective Service (SPS) to the Office of the Federal Register for publication on 6 May. OS requested expedited service in order that SPS could assume the police security function for Agency facilities in the United States from the General Services Administration on 6 May. The editorial and publications staff of the Federal Register were cooperative and the deadline was met.

S E C R E T

25X1

q. The Topical Issues Branch/OTE has completed another successful running of the segment on "Threats to the Security of the United States" for the Career Trainee Development Course. The week-long segment examines major current concerns of the United States Government, including the Soviet system and international communism, terrorism, insurgency, and international narcotics trafficking. A highlight of the course was a presentation by [redacted] of Georgetown University's Center for Strategic and International Studies on the Third World debt crisis and its implications on the industrialized West.

25X1

25X1

t. Centex Construction Company reported that they were one week ahead of schedule in finishing the new building's foundations. Upon completion of the foundations, the erection of the building's steel skeleton will begin. This should occur in about one month. Centex is also building the forms for the building's exterior wall.

u. Renovations to the cafeterias at Headquarters Building are continuing. In the South Cafeteria, painting of the new ceiling in the mezzanine area has been completed. The contractor, having completed preparations for the millwork and trim, will finish painting, carpeting, and installation of the dividers and railings in the North and South Cafeterias in Headquarters Building by 7 June. New tables and chairs have been received and will be placed in the cafeterias by 10 June.

S E C R E T

S E C R E T

v. The Office of Logistics (OL) received final acceptance of the barricades system at Headquarters and all deliverables under the contract from OS on 6 May. Various electrical problems had plagued the system since installation in November 1984, and hence, payments in excess of \$100,000 were being withheld from the contractor [redacted] until resolution of the problems could be achieved.

25X1

25X1

3. Significant activities anticipated during the coming week:

None.

10 May 1985

MEMORANDUM FOR: Director of Central Intelligence
Deputy Director of Central Intelligence
Executive Director

FROM: James V. Hirsch
Acting Deputy Director for Science and Technology

SUBJECT: DS&T Weekly Activities for 10 May 1985

Of Special Interest This Week

° At the request of the President's Foreign Intelligence Advisory Board, FBIS searched its files for any monitored Soviet material on Poland, Pope John Paul II, or the Catholic Church during the period March-April 1981. Nothing was found on the Pope or the Catholic Church, but over 200 items were located on Poland and sent to the PFIAB.

° FBIS has been invited to attend the first meeting of a new subcommittee of the NSC's Intelligence Information Committee which will investigate Soviet propaganda techniques. The 10 May meeting agenda includes a report from the interagency Soviet Active Measures Working Group, "semantic pollution," Soviet exploitation of U.S. domestic vulnerabilities, and Soviet propaganda techniques.

° FBIS located a TASS item cited by the WASHINGTON POST in a story on U.S.-Soviet relations in the wake of the Nicholson shooting and passed it to the Office of the Assistant Secretary of Defense for forwarding to General Powell, Secretary Weinberger's military aide.

° The American Embassy in Singapore conveyed the appreciation of Singapore's director for socialist countries at the Ministry of Foreign Affairs for FBIS' comprehensive coverage of North Korean Foreign Minister Kim Yong-nam's recent visit to Moscow.

° For the next few months, FBIS will be preparing bimonthly listings of Soviet media comment on Arms Control Treaty violations to pass to Senator James A. McClure (R, Idaho), who sits on the Senate Defense Committee. Senator McClure has asked for frequent updates on available Soviet comment in anticipation of a "heating up" of the issue during summer floor debates.

25X1

° On 2 May, Mr. Bernie McMahon, staff director of the Senate Select Committee on Intelligence(SSCI), was briefed on the mission and operations of NPIC's Priority Exploitation Group.

° On 7 May, D/OTS presented a general overview of OTS and hosted a tour of OTS facilities for SSCI Staff Director Bernie McMahon and [REDACTED] of the Intelligence Community Staff.

CL BY SIGNER
DECL OADR

25X1

SECRET [REDACTED]

25X1

OGI briefed Congressman George Wortley of the House Banking Committee on money laundering by drug traffickers.

OGI briefed Under Secretary of State William Schneider, Jr. on anti-Communist insurgencies and the Marxist-Leninist approach to counterinsurgency.

OGI briefed Department of Energy officials on OPEC refining and product marketing activities and on its oil facilities model.

25X1

OSWR briefed the NRC Chairman and Commissioners on nuclear program updates in Sweden, Italy, South Africa, Switzerland, Argentina, and Brazil.

SOVA hosted the meeting of the DCI's Military Economic Advisory Panel.

SOVA briefed ACDA officials, including Director Adelman, on the relationship between the Soviet moratorium proposal and Soviet strategic force levels.

SOVA and ACIS briefed Frank Gaffney, Deputy Assistant Secretary of Defense for Strategic and Theater Nuclear Force Policy, on the size of the SS-20 force.

25X1

Looking Ahead

25X1

NESA will provide updates for the DDCI on terrorist facilities in Lebanon.

Briefings

There were 12 briefings on the Hill this past week.
